

BioZone[®] Air Purifier Mini PowerZone (MPZ) Series Cleaner Air Healthier Life

Powerful & Mobile

Suitable for heavily contaminated area
Made by robust material and easily moved

Timer

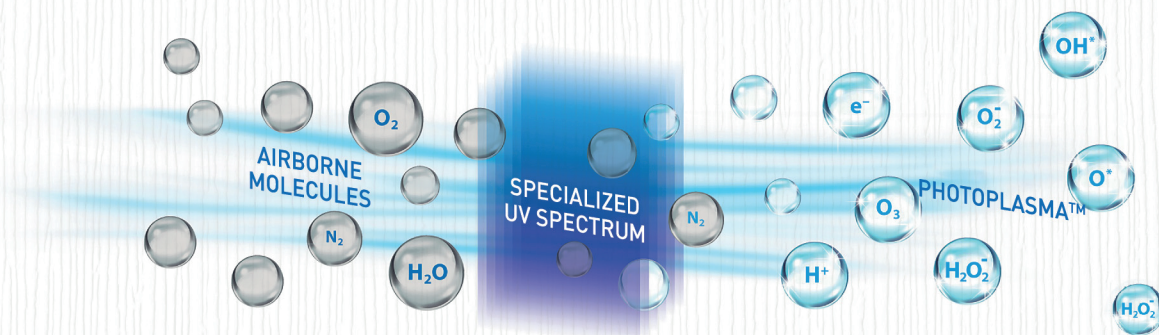

Allow users to set the treatment time

Versatile Applications

Suitable for quick or long term air treatment

BioZone® Air Purification Technology: PhotoPlasma™

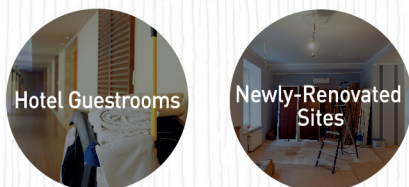

PhotoPlasma™ is generated by airborne molecules such as oxygen and water vapour under the exposure of the specialized UV spectrum. It includes reactive oxygen species, free radicals, electrons, etc., which actively capture various air contaminants, and rapidly destroy their structures through a chain of reactions. In this way the contaminants are decomposed and converted into harmless end-products like carbon dioxide and water.

Applications

Heavily contaminated areas

Temporary air polluted areas

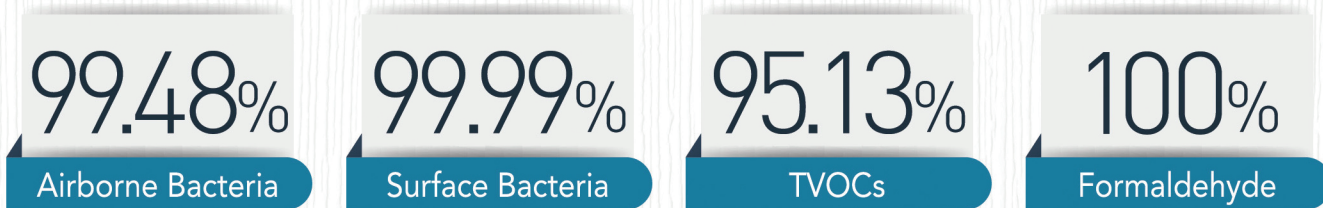

Product Installation

Performance

Eliminate up to:

* Samples and tests were taken by third-party accredited laboratories.

Nominal Specifications

Model	MPZ-II
Size (mm):	531(L) x 132(W) x 102(H)
Weight (kg):	2.7
Power Input:	110-240VAC, 50-60Hz
Power Consumption (W):	<100
Lamp Life:	1 year

Specification and design are subject to change without notice.
